USER STUDIES

# SURVEY

## WHAT'S REWARDING ABOUT DRUPAL?

*It's flexible and customizable*

Editors like that Drupal allows them to  
*have control over their content.*

USER STUDIES

# SURVEY

## WHAT'S CHALLENGING ABOUT USING DRUPAL?

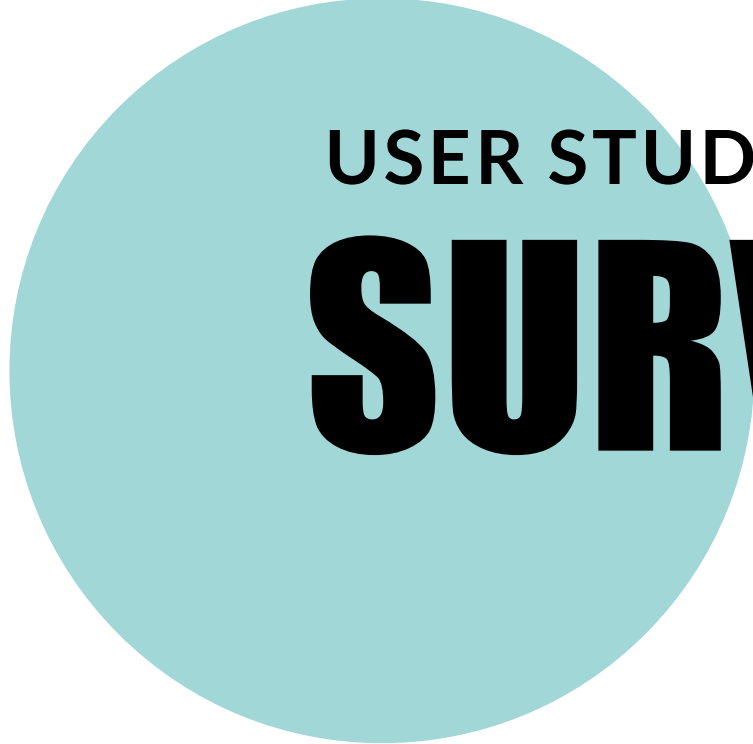

Flexibility & customization cause **complexity**, specially Paragraphs.

Difficult to find documentation

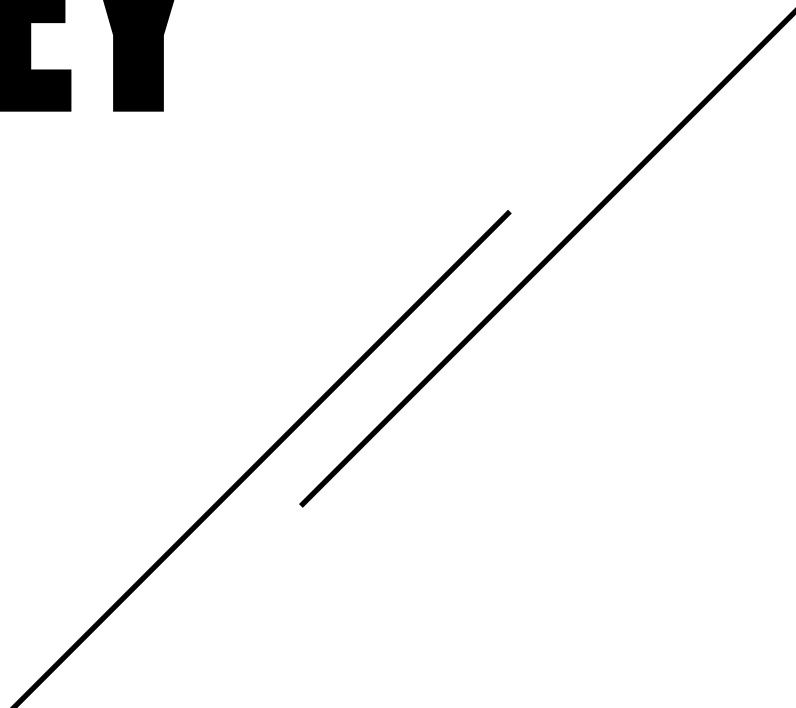

Working with media

Finding what content to edit

USER STUDIES  
**SURVEY**

## WHAT CAN WE IMPROVE ABOUT THE CONTENT EDITORIAL EXPERIENCE?

A more modern UI  
(Gutenberg and SquareSpace mentioned)

Simplifying the complexity of the content editing UI

Better media management

Improvements to the WYSIWYG editor

More role-based configuration for content editors

USER STUDIES

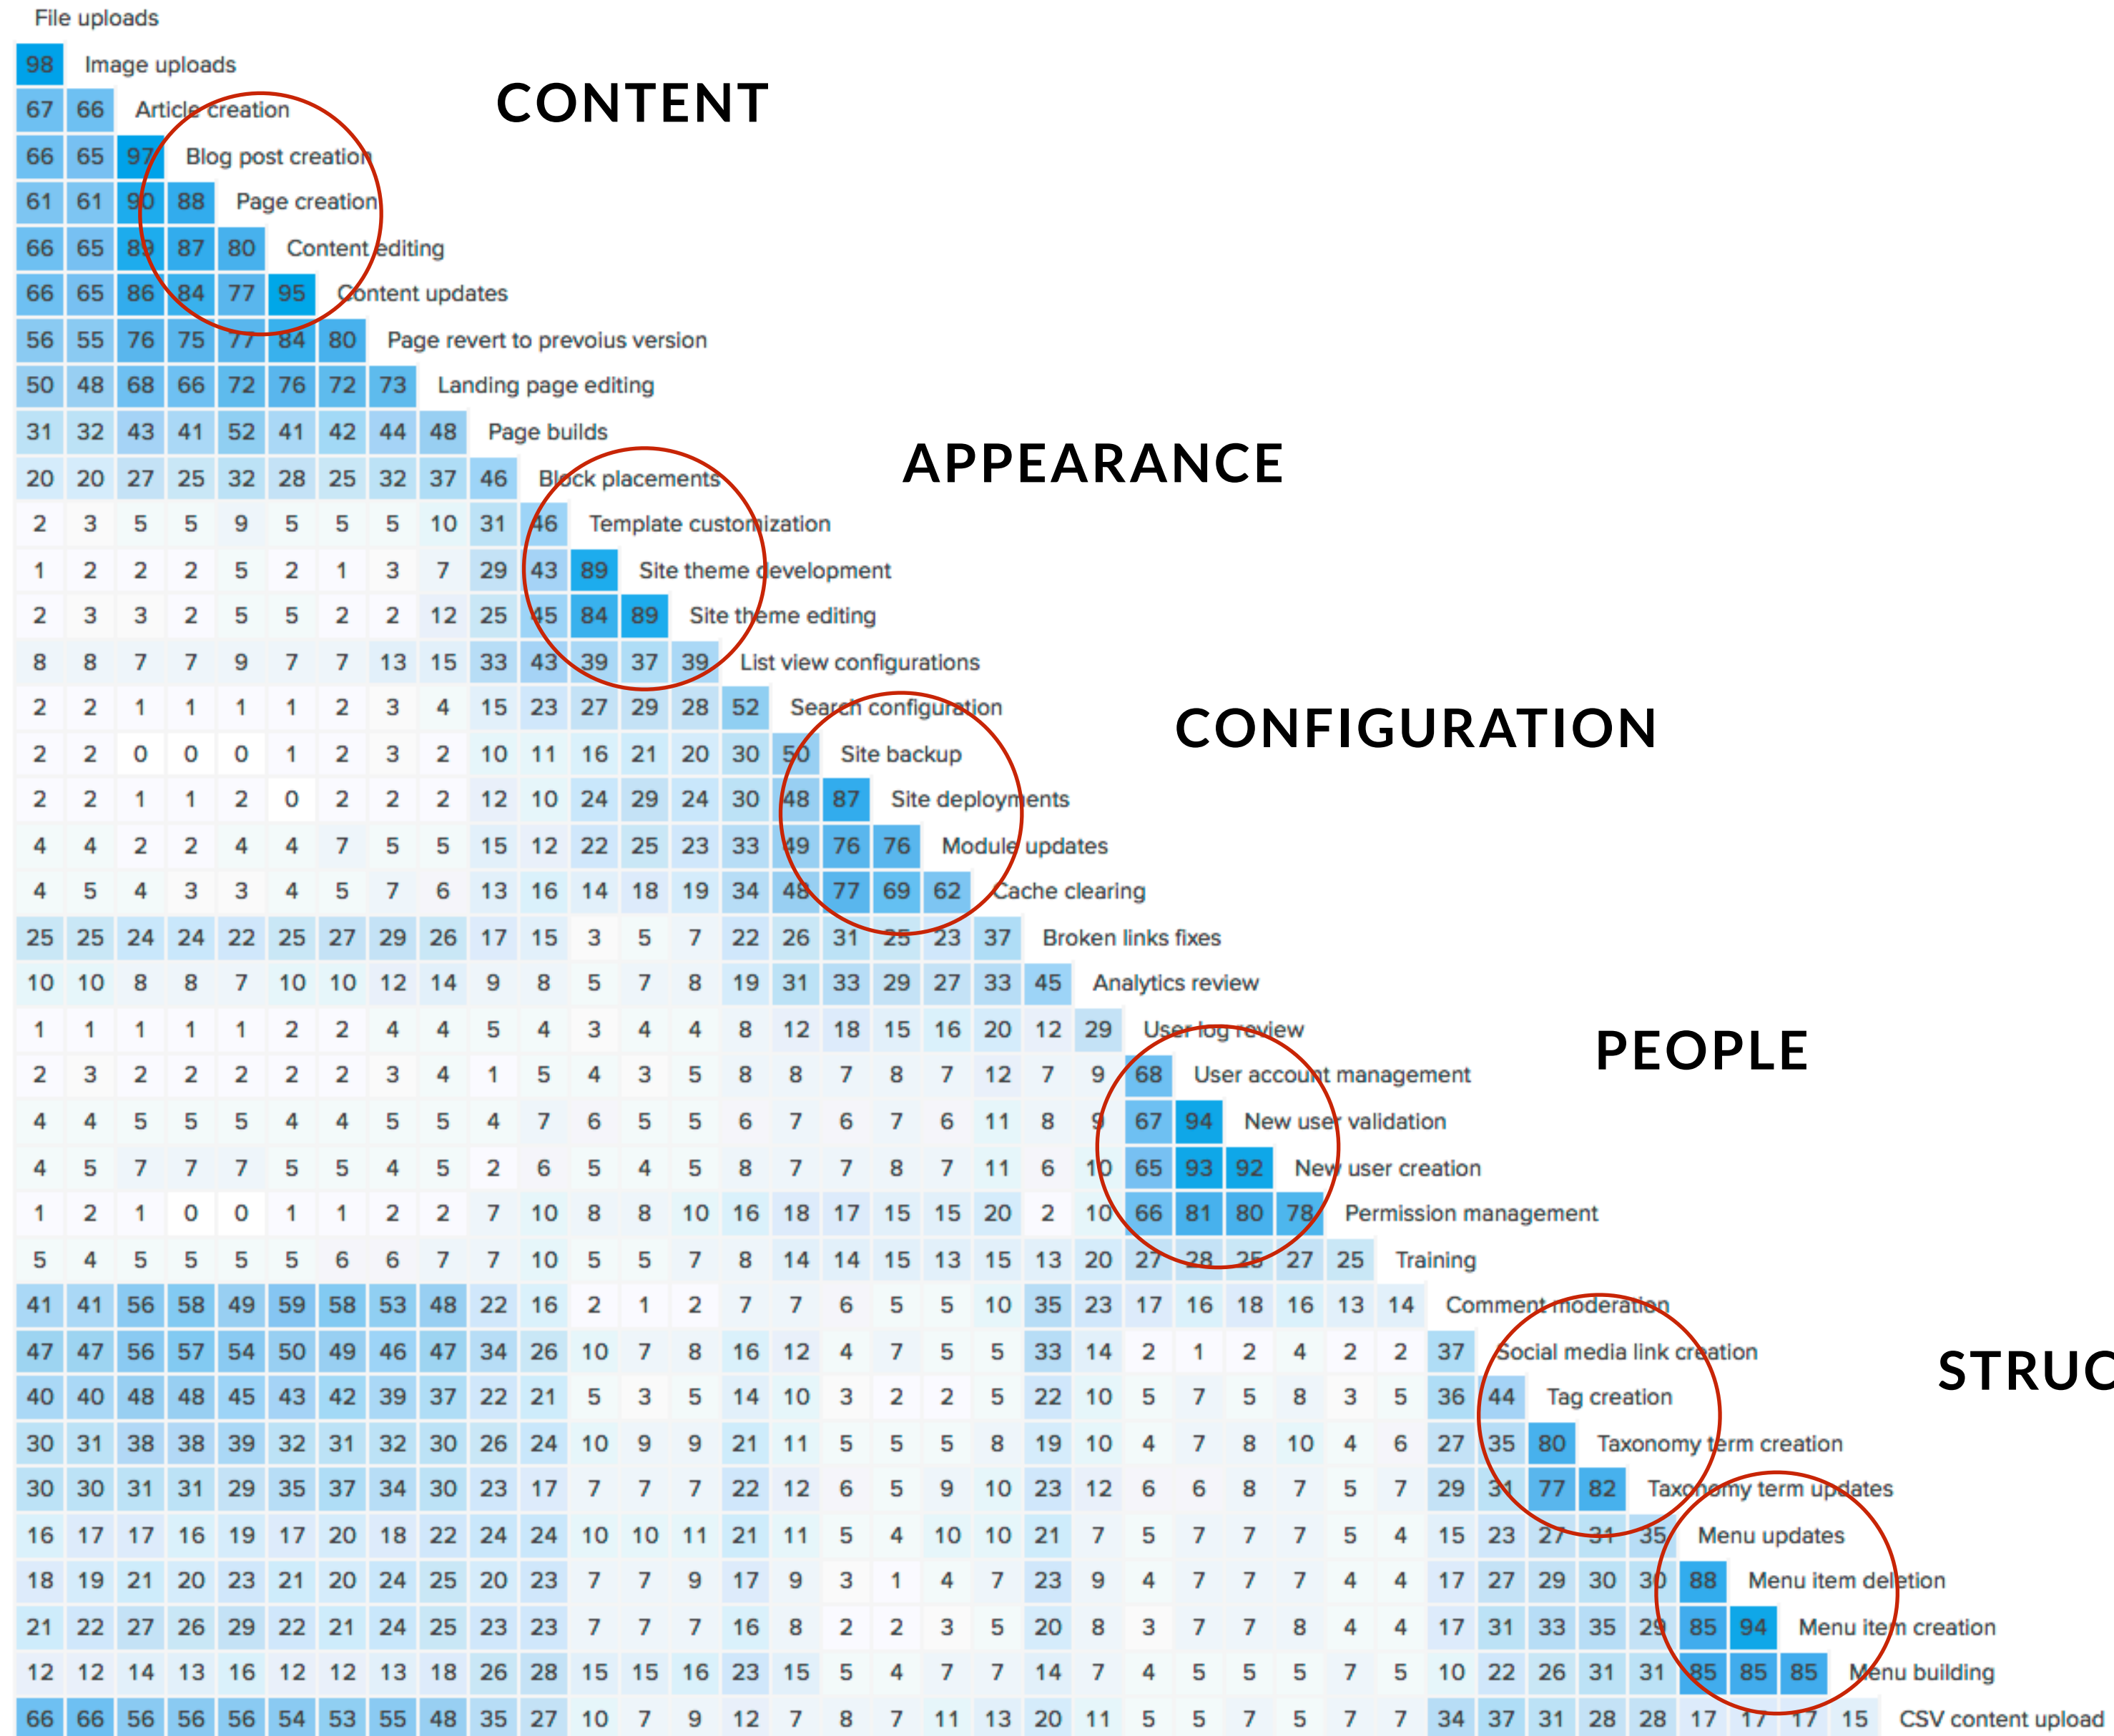

**CARD  
SORTING**

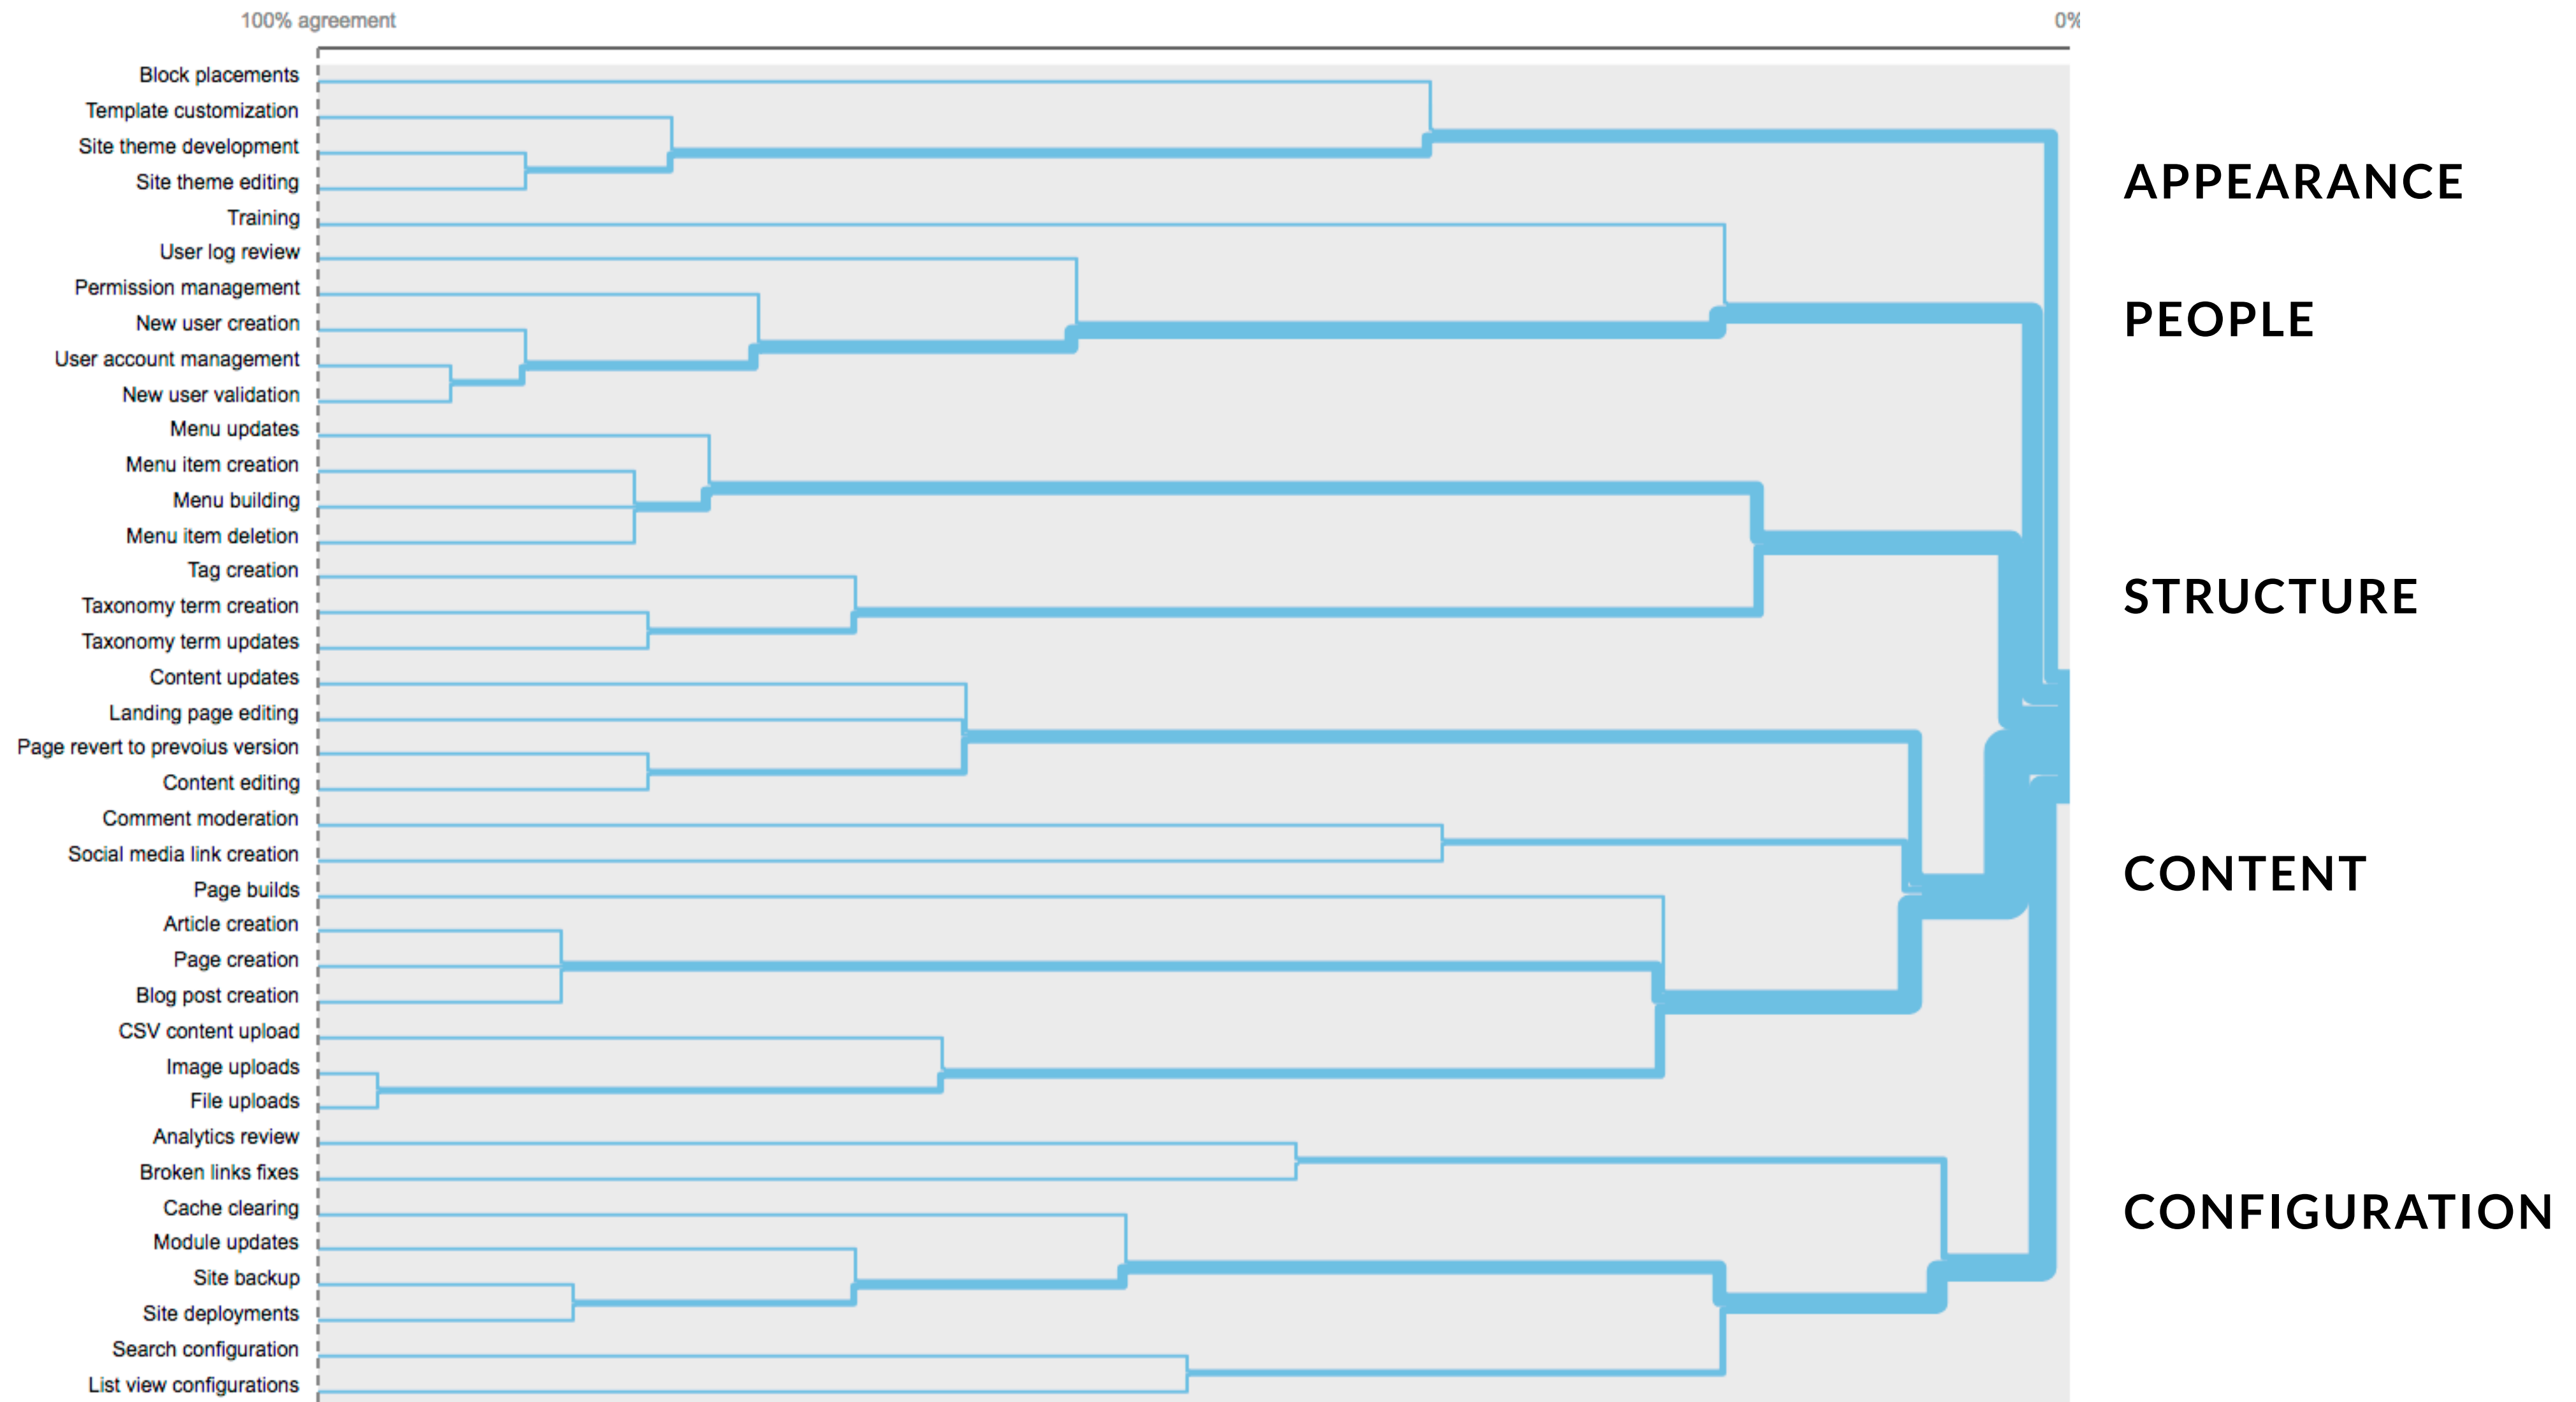

+150 people completed the Card Sorting

Goal: improve Information Architecture

# Similarity Matrix

USER STUDIES

**CARD**

**SORTING**

Results similar to what we have now.

Participants described themselves as content authors, but most of them were also site builders with Experience with current Drupal IA.

USER STUDIES

# COMPARATIVE STUDY

Wordpress with Gutenberg

Craft CMS

Contentful

SquareSpace

# RESULTS SPOILERS

## Contentful

Intimidating, not for editors

Terminology too complex

## Craft CMS

Interface prepared for editors

Confusion with difference from adding elements into the body field or outside like paragraphs.

## SquareSpace

Interface seemed too simple to handle

UI too simple with no clues

## WordPress Gutenberg

Interface prepared for editors, complex features less prominent

Confused Gutenberg editor by content preview

# TAKEAWAYS

More complex UI is expected for more complex sites

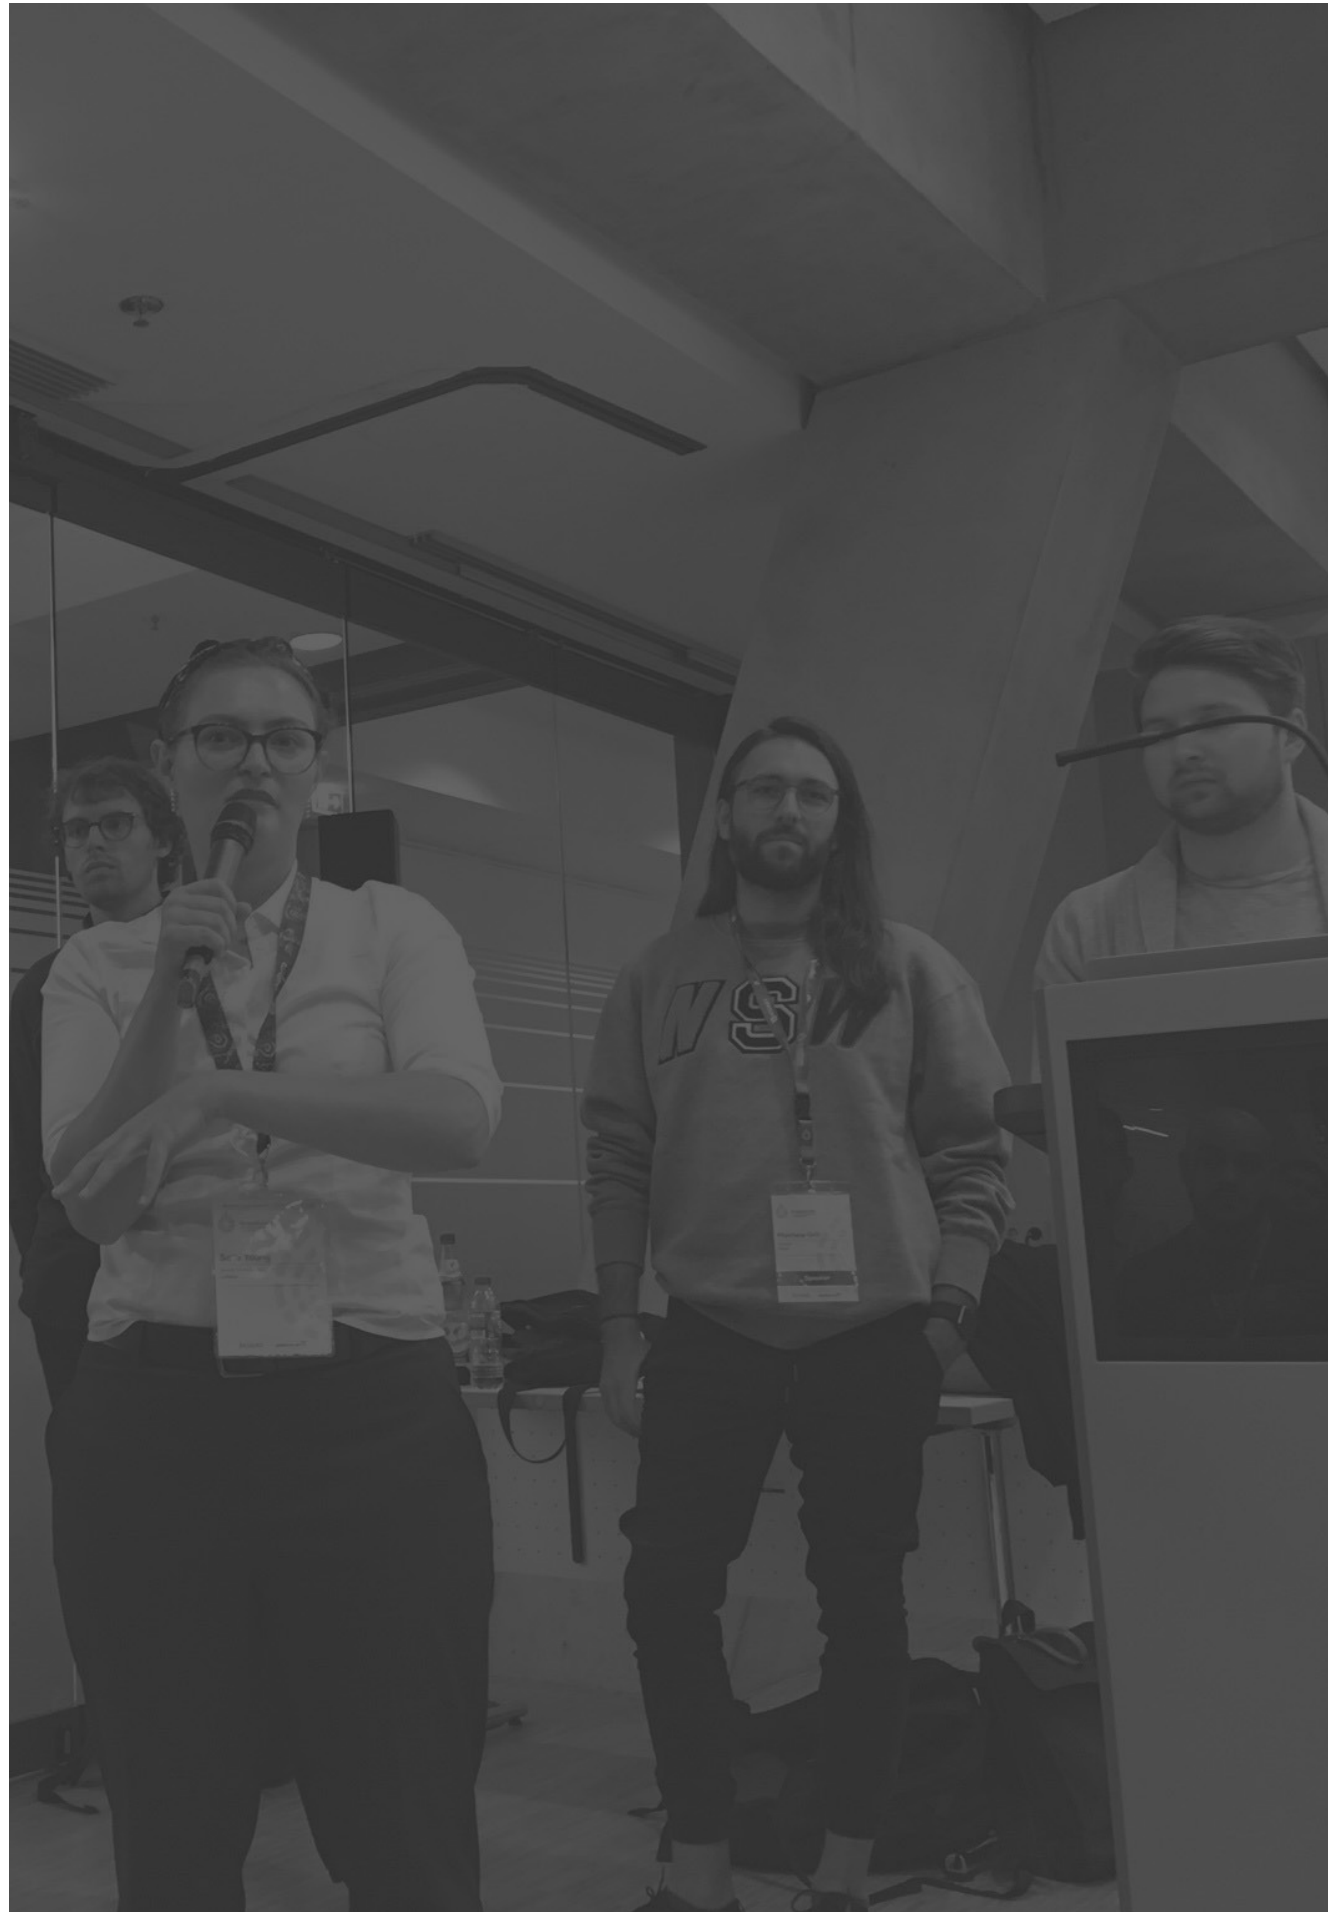

Content editor-friendly Dashboard and terminology smooth the learning process

Publishing anxiety. Editors fear consequences of clicking Save button.  
Autosave and clear workflow can help.

Editors want clear state of the content options for Preview, Save and Publish.
